¹Death benefit guarantee is equal to the adjusted total premium, which is the initial single premium plus any underwritten increases, less any partial surrenders and any applicable surrender charges in excess of policy gain. The death benefit guarantee will not apply if the sum of any outstanding loans plus accrued loan interest is greater than the policy's cash value.
²Under current tax law. COF and its agents do not offer tax advice; consult a tax professional regarding your specific situation. ³Loans accrue interest at the rate described in the policy contract and decrease the death benefit and cash value by the outstanding loan amount. Surrender charges may apply for withdrawals taken years 1-19. ⁴Additional rates available for individuals age 50 – 85. Like most insurance policies, COF policies contain exclusions, limitations, reductions of benefits and terms for keeping them in force. For complete costs and details, see your COF field representative.
