The recent avalanche of videos and reports that continue to expose Planned Parenthood's practices has been a wake up call for faithful men and woman to stand up for the unborn.

There is a public outcry that what is happening behind the doors of Planned Parenthood is an injustice, and the voice is getting louder.

On July 21, 2015, The Daily Signal used data pulled from [2ndVote](#) to compile a [list of 38 companies](#) that donate to Planned Parenthood. This was an effort to defund Planned Parenthood or at least bring to light the substantial number of companies that have financial involvement.

Planned Parenthood continues to generate nearly 50% of its revenue from government funding ([\\$540 million](#)) and more than 25% from corporate sponsorship—many of these companies are packaged in retirement plans (401k plans and IRAs) and listed on the S&P 500 and Fortune 500.

What is in your portfolio?

IT COULD BE ONE OR MORE
OF THESE COMPANIES

*You may own companies either
directly or through an investment
vehicle like a mutual fund.*

eVALUEator is now offering this list of 77 companies that have given corporate donations or sponsored events for Planned Parenthood within the past five years.

A few things to note about this list: None of the companies are listed due to matching charitable

contributions—they all represent intentional corporate donations or sponsoring events within the past five years. Additionally, this list comes from eVALUEator's proprietary database, which has been developed over the past twenty years to get a clear picture of how companies employ their corporate assets.

eVALUEator is a tool designed to help consumers and financial advisors use their dollars in ways that honor God. Our hope is not only to defund Planned Parenthood, but to remove all funding associated with abortion, abortifacients, fetal-tissue research, and all endeavors that seek to destroy human life.

Corporate Announcements

LET'S ENCOURAGE THESE COMPANIES TO RETHINK THEIR FUNDING OF PLANNED PARENTHOOD

 *If any company comes forward saying that they will no longer support Planned Parenthood, we will promptly emend this list to make special note of the change. Our prayer is that every company removes support.*

UPDATED: DECEMBER 9, 2015

Stand for the Unborn

We want to see Planned Parenthood defunded immediately. There are some very practical ways you can help.

- 1 [Sign the petition for congress to defund Planned Parenthood immediately.](#) More than 80 members of the House of Representatives have introduced a bill that would immediately defund Planned Parenthood. This petition could help stop government funding for good.
- 2 [Write your congressperson](#) as well as the companies or brands that you have done business with in the past.
- 3 Stop supporting companies that continue to fund Planned Parenthood—both as a consumer and as an investor. Most of these are publicly traded companies that are typically found in retirement packages. If you want a complementary screen of your investment portfolio, please contact us below.

Screen It  Clean It™
Powered by 

Investors can run free searches of companies and products to see if they pass the moral screening test.

screenit-cleanit.com

¹ Indicates that company has sponsored one or more Planned Parenthood fund raising event(s) in the past five years¹. This information is collected over the years by searching for sponsorship of Planned Parenthood events.

² Indicates that company has given contributions directly to Planned Parenthood, not including corporate gift matching, in the past five years¹. This information is collected by researching Form 990s obtained from foundation-search.org.

³ Since corporate gift giving and sponsors happen in cycles, eVALUEator keeps a company on its violation list for five years, or until the company makes a written statement publicly or directly to sources used by eVALUEator stating they will not make any future contributions.

² eVALUEator uses a set of biblically-based screening criteria that determines whether a company is clean or not. These areas include abortion, pornography, anti-family entertainment, lifestyle, alcohol, tobacco and gambling.

³ The firms listed are active eVALUEator subscribers and use its services to help screen their portfolio holdings. Tickers shown are for Class A Shares; other share classes may be available.
