

# Worry Free Way to Meet Financial Goals

Imagine a way to year after year protect your family's future and increase the value of your nest egg.

## **ForesterBasic 15-Pay Whole Life Insurance offers just that.**

Here's how:

- Minimizes premium payments—just 15 annual payments
- Maximizes cash value accumulation—tax advantaged<sup>1</sup>
- Provides financial security—death benefit if needed, supplemental income if not

The chart above illustrates the cash accumulation for David, a healthy, 30-year old non-smoker. David just became a father for the second time and wants to protect his wife's and two little girls' future if something should happen to him.

David took out a *Forester Basic 15-Pay Whole Life*<sup>2</sup> policy with a \$100,000 death benefit. He will pay \$1,215 annually for just fifteen years—a total of \$18,225. But look how that money grows. By age 45, David's cash value rises to \$28,358. It will continue to grow as long as the policy remains in force.

David knows, if needed, his family can rely on the death benefit. And if not needed, he can use the policy values to provide college funding for his daughters, pay for their weddings, provide additional retirement income for him and his wife, or for other purposes—perhaps that Hawaii trip he's always dreamed about.

<sup>2</sup> Available in policy amounts from \$10,000 and up, ages 0-85. Additional rates and ages available. Guaranteed cash value. Illustration reflects Preferred Class (non-tobacco).
